

EXAMINER INTERVIEW SUMMARY

Applicants thank Examiner Pascua for the personal interview with Applicants' representative, Anthony Kandare, on Wednesday, October 24, 2007. During the interview, independent claim 5 was discussed along with the subject matter of portions of a panel longitudinally extending beyond the seam being folded over along a fold line transverse to the longitudinal direction and attached to themselves, which should patentably distinguish over the Kucksdorf reference. U.S. patent no. 6,886,980 to Diplock (Diplock) and Fig. 16 thereof was also discussed as potentially being relevant to independent claim 5. Diplock is being cited in the attached information disclosure statement filed herewith. The improper rejections to claims 46 and 47 were also discussed.
